(**XT**) = 2mm Extruded Acrylic NOT Cast Acrylic

Materials: Perspex Branded Cast Acrylic & XT Extruded Acrylic. Discs are Flat **NOT CONVEX**

Tolerances:

Material Thickness: +-0.5mm

Cut Diameter: +-0.25mm

Material Information:

Our Clear cast acrylic offers the ultimate solution to your requirements

Clear Cast Acrylic has light transmission in excess of 92%, this superior quality material provides greater light transmission than that of glass, with virtually no colour bias.

Longevity is guaranteed with clear cast, even when subjected to over 10 years of harsh outdoor exposure, clear cast retains 85% of its visible light transmission.

2mm White and Black XT Extruded Perspex Acrylic

We also supply 2mm gloss white and gloss black **BUT** in XT Extruded Perspex Acrylic NOT Cast Acrylic. 2mm Gloss White & Black are solid colours.

KEEP AWAY FROM SOURCES OF HEAT.

Clear Cast Perspex Acrylic is a thermoplastic and NOT GLASS.

Coloured Cast Perspex Acrylic is a thermoplastic keep away from sources of heat.

Coloured XT Extruded Perspex Acrylic is a thermoplastic keep away from sources of heat.
